

Email Template for Supplier V1

Hello there!

I have a fantastic opportunity for you to sell your products on my website. Let me break it down for you:

- 1) My team of web developers will gather and synchronize your products from your e-commerce store or inventory management system
- 2) We will list your products on my website, and when a customer buys something, you'll receive all the order information and take care of the shipping.
- 3) This service involves promoting and selling your products on my website, with just a 20% fee for each successful sale.

We offer these technical options:

If you have a Shopify or WooCommerce store, we can connect seamlessly using an API. I have some documentation links that explain how you can easily provide the necessary API details.

Shopify:

WooCommerce:

<https://berriconnect.com/woocommerce-api/>

If you're using a different system, no worries! We can set up a steady feed for product updates.

Does this sound interesting to you? If you have any questions, please don't hesitate to reach out.

I would like to propose a collaboration opportunity for selling your products on my website. Here's how it works:

- 1) My web developers will pull your products through a feed from your e-commerce store or inventory management system.
- 2) We will list your products on my website, and when a product is purchased, you will receive the order details and fulfil the shipment.
- 3) This service entails promoting and selling your products on my website, with a fee of 20% for each sale.

To integrate your products, we offer two technical options:

If you have a Shopify or WooCommerce store, we can connect using an API. Here are the documentation links explaining how to provide the necessary API details.

Shopify:

<https://berriconnect.com/shopifyapi/>

WooCommerce:

<https://berriconnect.com/woocommerce-api/>

If you have a different system, we can establish a constant feed for product updates.

Please let me know if you're interested or have any further questions.
